

How to Join

Java

IP Address: mc.fortunecraft.net

Minecraft Version: 1.21.8 (you can join on later versions but you will not have access to any features in newer versions until we are able to update the sever)

Bedrock

1. Add FortuneCraft387 as a Friend on Xbox.
2. It should add you and pop you an invite to the Server.
3. For future references you can just open the game, navigate to the Friends tab and join via there!

Alternatively on Windows and mobile you can also enter this information in the server tab:

- IP Address: mc.fortunecraft.net
- Port: 25565
